

Grass Tech

INNOVATION. PERFORMANCE. RESULTS.

NEW

OUR MOST IMPRESSIVE ADDITION

**LIQUID FERTILIZER SYSTEM
FITTED TO THE ZERO GRAZER**

- ✓ **PRECISION APPLICATION**
Even, accurate nutrient delivery across the field.
- ✓ **INCREASE YIELD POTENTIAL**
Optimal fertiliser placement for healthier, stronger grass.
- ✓ **DESIGNED TO PERFORM**
Seamlessly integrated with the Zero Grazer for maximum efficiency.
- ✓ **BUILT TO LAST**
Robust, reliable, and ready for any conditions.

LARGE CAPACITY TANK

Minimise stops.
Maximise output.

PRECISE CONTROL

Adjust flow with ease
for perfect results.

EVEN COVERAGE

Uniform application
every time.

FULLY INTEGRATED

Built in. Built tough.
Built for performance.

**THE FUTURE OF
FERTILIZER APPLICATION
IS HERE.**

**SEE THE DIFFERENCE.
GROW THE DIFFERENCE.**

Grazer GT55

The GT55 is a forage harvester that cuts the grass and then immediately loads it into the wagon using tines and a feed chain. Thanks to this loading technique, the cut grass remains undamaged. This prevents the grass from heating up during barn feeding, which results in better palatability and less loss of nutritional value.

GT55 Standard Options

- Knives per drum: 4
- Walterscheid P-line PTO (Series 6)
- Automatic lubrication system
- Mudguards
- RDW package (road registration package)
- Hydraulic support leg
- LED work lights

GT55 Capacity

- PZ drum mower
Working width: 2.2 m
- Power requirement: 65 hp
- Own weight: 3500 kg
- Dimensions: 5.5 × 2.55 × 2.9 m
- 550/45R22.5 tyres

Volume: 2.30 × 2.05 × 1.8 m
8.5 m³
300 kg dry matter
1700 kg product

The GT55 is also highly suitable for mowing roadside verges, natural areas, and grass fields. The grass is cut and loaded, allowing it to be removed immediately.
